

## M 52/52/16 Cabinet - 144J

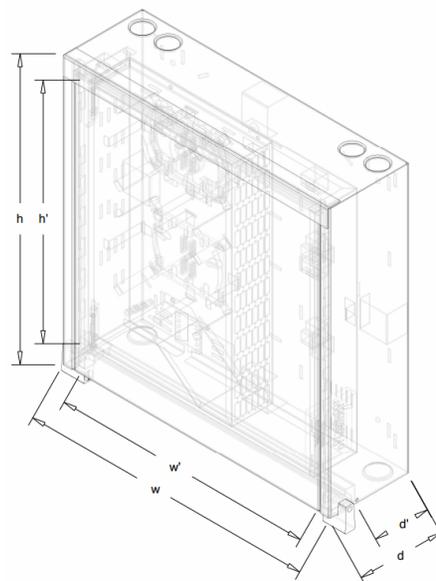

### DESCRIPTION:

Cabinet designed for wall mounting in places particularly vulnerable to devastation and burglary.

- It enables the termination of cables reaching the building from the telecommunications center, vertical cables and the assembly of optical splitters,
- In the cabinet there is a fiber optic switch with a 144 J switching box (72 holes, S.C., DX), two screws for mounting fiber optic trays and holders for the organization of fiber optic fibers. It is tilting and unmountable,
- Organizational handles for easy cable storage (at the back, under the distribution box),

The cabinet has 2 holes in the corners from above and one at the bottom ( $\varnothing 38 / 29$  - plugged),

- Closing with 2 padlocks T-13 Barrel with 8 mm diameter shank,
- M 52/52/16 WZM version has safe lock (with IMP certificate, high security according to PN-ENV 1300: 2002)
